WELCOME EMILY TO OUR HOLLYWOOD TEAM!

Congratulations Emily Christianson for being Hollywood's first student and graduate of Hollywood Salon and Academy. Emily has a natural ability for the cosmetology industry and graduated a head of schedule. Her natural color and cutting ability has enabled her to already begin building a

clientele basis. We are very fortunate to have her as a part of our family. Please help us congratulate her where you come in for your next service.

Hollywood’s Mission Statement

HOLLYWOOD’S MISSION

Hollywood was established to give back to the community. We use professional products that are environment & people conscious, educate and give careers, and welcome everyone that comes through our doors.

We have monthly specials and include haircuts in all chemical services. This is simply because we understand that everyone needs at least 1 service offered and everyone should be able to afford their necessity.

Our academy is to give careers to all that

has the initiative to help themselves. It is proven that if we all have one common goal in mind: success; the more people we can help in life no matter what the “help” may consist of.

Paul Mitchell’s Super Skinny provides smooth hair, regardless of the type or texture.

Goldwell color brings out the best in a fabulous cut!!
